The Trees Please Pledge

If I am elected, I pledge to take the following actions to protect and maintain Winnipeg's urban forest:

- **1. Plant**: Ensure that for every 1 public tree (boulevard and park) lost, the city will replant at least 2 new public trees and ensure that those trees are adequately watered, so they survive & thrive.

- **2. Maintain**: Fund a 7-year pruning cycle (the industry standard) for all public trees.

- **3. Protect:** Require that tree protection best practices be incorporated into all construction projects to prevent damage and loss of trees.
